# New Treasury File

## May 2006

---

---

### Download your Bond Pro Treasury File

To download the Treasury File, follow these steps:

1. Click on the [New Treasury File](#) link to download.
2. Click on the Save option.
3. Save the New Values file, **SBBPTFC.EXE**, to your **Desktop**. If prompted, click Yes to overwrite the existing file.
4. Once the download is complete, you need to continue with the next section, **Update your Bond Pro Treasury File**.

### Update your Bond Pro Treasury File

To update the Treasury File, follow these steps:

1. Start Bond Pro.
2. Click on the Maintenance menu.
3. Click on the System Maintenance option.
4. Click on the Treasury File tab.
5. Click Browse.
6. The "File name" field should contain the update file name, **SBBPTFC.EXE**. The "Look in" field should display the folder, **Desktop**. If so, click Open and continue with step 7. Otherwise, locate your **Desktop** folder in the "Look in" field and click on the **SBBPTFC.EXE** file. Then, click Open and continue with step 7.
7. Click Update. Please wait. This may take a few minutes. You'll be prompted when the update is complete.
8. Click OK. Bond Pro will update the Treasury File tab with the date of the Treasury File.
9. Click Cancel to return to the main Bond Pro screen.

**NOTE:** Steps 1-9 must be performed everywhere the executable program is installed at your institution.

Bond Pro is now current with the new Treasury File. You can delete the **SBBPTFC.EXE** file from your **Desktop**.
